Zero-G Vocaloid 1 products Leon Lola and Miriam will be discontinued soon.

Only available until 31 December 2013. Last chance to buy!

Until the end of December 2013, you can still buy any of the three *Vocaloid 1* download products **LEON, LOLA and MIRIAM**. However, on 1 January they will finally be 'retired' to that great Vocaloid playground in the sky...

Unlike the Vocaloid 2 products Prima Sonika and Tonio, or the Vocaloid 3 product Avanna, **these Vocaloid 1 products Leon Lola and Miriam only support Windows XP officially**, though many users have reported they do work well on Windows 7.

LAST CHANCE TO BUY - until the end of this month, Vocaloid 1 titles LEON, LOLA & MIRIAM are still available by download, with PRICES STILL REDUCED by an amazing 60% OFF the list price - at just \$39.99 each.
Product information follows:

LEON, LOLA and MIRIAM are VIRTUAL VOCALISTS for PC (Windows), powered by Yamaha's VOCALOID 1 Singing Synthesis Technology. VOCALOID is a unique kind of instrument that uses the natural tone and articulation of a real human voice as its source, allowing the user to synthesize incredible vocals.

Leon, Lola and Miriam have never been available at a lower price. **Pay only \$39.99 each** (normally \$99.99 for the boxed DVD version - save \$60.00 by purchasing the download version).

Creating your own backing vocals is a realistic and now even more inexpensive proposition - even for complex harmonies and arrangements, and Vocaloid's range of expression tools allow editing and manipulation of the finest nuances. With skill and application you can create unprecedented vocal realism. Or... you can live in the exciting world between human and machine, where Vocaloid can even provide vocals that sound like they were performed by a superhuman virtuoso. Using Vocaloid in this way, as a true hybrid of human voice and synthesizer, the potential for innovation is limited only by your own imagination. Do you simply want Vocaloid to perform your lyrical ideas in a rough form as an aid to your songwriting process? Or will you

**Special download
price: only
\$39.99 each**

(normally priced on
CD-ROM at \$99.95
each)

**LAST CHANCE TO
BUY!**

**ONLY AVAILABLE
UNTIL DEC 31!**

**LEON LOLA AND
MIRIAM WILL THEN
BE DISCONTINUED.**

use its freedom from human limitations to create stunningly innovative and experimental vocal effects?

"Vocaloid is clearly going to be big in the music business. The start of something huge in modern music. Fascinating software which delivers everything it promises!" (MUSIC TECH Magazine, UK, rated 9/10 and MUSIC TECH RECOMMENDED Award).

"Vocaloid would certainly be useful, particularly for backing vocals" (SOUND ON SOUND, UK).

[Click HERE](#) for much more detail on these 3 titles, or to purchase them through our [Download Shop](#).

NOTE: Remember that LEON, LOLA and MIRIAM use the earlier Vocaloid 1 engine. Since its first release, the VOCALOID 1 (Version 1) software was improved: Yamaha provided enhanced features and improvements in a software update (Version 1.1.2) which is INCLUDED with these downloads. However, if you prefer to have all the additional features of Vocaloid2 or Vocaloid3, consider purchasing one of the later version 2 voices instead - Prima, Tonio or Sonika, or our latest product Avanna which uses the even better Vocaloid3 software.

PLEASE NOTE THAT VOCALOID 1 VOICES ARE NOT COMPATIBLE WITH VOCALOID 2 VOICES - FOR EXAMPLE YOU CANNOT USE LEON (VOCALOID 1) TOGETHER WITH PRIMA (VOCALOID 2) WITHIN THE SAME VOCALOID EDITOR.

***** NOTE ALSO THAT VOCALOID 1 VOICES LEON, LOLA AND MIRIAM ARE NOT OFFICIALLY COMPATIBLE WITH WINDOWS 7. THEY ONLY WORK 100% WITH WINDOWS XP. Many users report that they do work well with Windows 7, but we cannot guarantee they will in your case!*****

Recommended System FOR VOCALOID 1 voices (Leon, Lola or Miriam): Windows XP, Pentium 4, 1.7 GHz or faster, 1 GB of RAM or more. Approx 700 Mb Hard disk space or more, CD-ROM or DVD-ROM Drive, SVGA Display (1024x768), Sound Card with Microsoft DirectSound Compatible driver

*****Vocaloid products are NOT Apple Mac compatible*****

(Prices in US Dollars, PayPal or Credit Cards accepted. EU customers will have VAT added to these prices at 20%).
